EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The Title of the Invention has been replaced with:

--Method for forming a bearing apparatus.—

In the Specification, the paragraph beginning on page 1, line 1 has been replaced with:

--This is a Divisional of Application Serial No. 09/902,230 filed July 10, 2001, now abandoned.—

Remarks

2. The Title of the Invention was amended to better reflect the scope of the invention of the Divisional Application. See claim 1 ("A method for forming a bearing apparatus comprising: ...").
3. The statement of domestic priority was amended to reflect the fact that the parent application is now abandoned.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a method for forming a bearing apparatus comprising the steps of: "calculating a distance $X1 > X2(y1/y2)$ " and "positioning said inner ring on said hollow shaft such that said inner circumferential surface end point is distances from said spline portion end point toward said shaft end by the distance $X1$," in combination with the other claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
